DETAILED ACTION

1. This Office Action is response to Applicants' Appeal Brief filed on 04/04/2007.

Reopening of Prosecution after Appeal Brief

2. In view of the Appeal Brief or Reply Brief filed on 01/05/2007, PROSECUTION IS HEREBY REOPENED. A new Ground rejection set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37.

3. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

4. A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by signing below:

A handwritten signature in black ink, reading "John E. Buene". The signature is written in a cursive, flowing style.

5. Claims 1-11 are pending in this Application.

Claimed Subject Matter Not in Specification

6. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: “**machine readable storage**” does not support in the specification. Applicants are advised to amend the claims in a language that helps one of ordinary skills in the art to understand the intent of use and steps of invention.

Drawings

7. The drawings are objected to under 37 CFR 1.83(a) because they fail to show “if the opposite directive has not been stored ...”, “if a corresponding opposite directive ... said **key-pair entry** ...”; “response to detecting said corresponding opposite directive ...” and “key-pair entry/entries”, as described in the specification. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement-drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary

Art Unit: 2162

to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
